THE KENTUCKY KERNEL

UNIVERSITY OF KENTUCKY

LEXINGTON, KENTUCKY, FRIDAY, JUNE 20, 1947

Cloudy And Cool,
Showers

NUMBER 31

Campus To Get Dial Phones

All Telephone Lines To Be Underground

Work has begun on the new rotary dial phone system for the entire University campus. The contract, which has been let since the first of the year, does not call for a definite time of completion. All the materials for the project are still not here. There is a shortage especially of the cotton bandages used to waterproof the lines, according to E. B. Farris, chief engineer of the University.

Main machinery for the phone system will be located in the basement of the biological sciences building in what is now the storeroom. Lines will radiate from there. The initial excavating was therefore begun from there.

All lines for the phones will be underground with the exception of the University buildings further out than the animal pathology building. From there the lines will be overhead.

The present phone lines will be used for the clock and bell system. When the system is complete, the change from one set of lines to the other will be done either between midnight and 5 a.m. or on Sunday afternoon in order to disrupt phone service as little as possible.

Mr. Farris said that the system being installed by the University is the latest thing in dial phones. It is the same type which will eventually be installed by the city of Lexington, which will be one of the first cities to use it.

The new dial phones are as good a system as has been devised for use in the dormitories, Mr. Farris said. Under the new arrangement there will be a phone for approximately every 12 students. Each student will have his own number and a bell or buzzer will ring in his room automatically when the number is dialed. This eliminates the delay caused while the desk clerk rings for the person wanted.

Exchange Discontinued

The old administration building phone exchange will be discontinued with the coming of the dial phones. However, Mr. Farris said an operator will always be necessary for the University to handle incoming calls, long distance calls, and other special calls such as conferences. With the dial system, President Donovan, for instance, can tell the operator that he wants to speak to any number of different people on the campus. He arranges the hook-up, everybody's phone will ring at once, and he can start his conference without any one having to leave his office.

Of course, Mr. Farris said, no one knows definitely when the rotary dial system will be complete, but he hopes to have it in operation by September, 1948.

WBKY To Broadcast Series Over WHAS

A series of 15-minute programs originating in the studios of WBKY, University frequency modulation station entitled "After High School, What?" will be broadcast over station WHAS each Saturday at 1:30 p.m. The purpose of the programs is to acquaint high school students with the academic work available at the University, according to E. G. Sulzer, head of the department of radio arts.

Dr. Hobart Ryland, head of the department of romance languages, will appear on the first program which will be recorded tomorrow.

Subjects to be covered include romance languages, mechanical engineering, pre-medical work, mining and metallurgical engineering, agriculture and home economics, medical technology, art, chemistry, teaching, and law.

Informal Movies Scheduled Weekly

"Evening interludes," a series of informal movies, will be shown Thursday evenings at 7:30 in the amphitheater at the rear of Memorial hall. There is no charge and the public is invited. In case of rain the pictures will be shown in Memorial hall. They are being sponsored by the department of University extension. Next week's movie will be "Summer Fun."

Air Reserve Planes Are Available Here

Colonel Carl Ambrose, army air reserve training program, has planes at Blue Grass airport each weekend for the purpose of assisting air reserve officers in obtaining their flying time. Dr. Lyle K. Henry, assistant director of personnel has announced.

Dr. Donovan At Princeton Celebration

UK Represented In Academic Procession

Dr. H. L. Donovan, president of the University, returned Wednesday from Princeton, N. J., where he represented the University at the Princeton University Bicentennial celebration. The three-day program, June 15-17, marks the conclusion of Princeton's 12 months' observance of its 200th year.

He represented the University in the academic procession where each college or university representative stood in the order of his institution's founding.

More than 400 delegates attended the bicentennial, including representatives from 41 nations, and representatives of the government appointed by President Truman, and the United States Senate, and the House of Representatives, and by members of a New Jersey commission appointed by Governor E. Edge, former governor of the state, and the two houses of the legislature.

Among the events for the final three days was a concert by the Boston Symphony orchestra, the laying of the cornerstone of the Harvey S. Firestone Memorial library, and a final Bicentennial convocation on the front campus at which President Truman was among the forty recipients of honorary degrees. He and Dr. Harold W. Dodds, president of Princeton, spoke at the convocation.

Others from Kentucky who attended the bicentennial celebration were Frank H. Caldwell, president of the Louisville Presbyterian Seminary (Louisville); Francis S. Hutchins, president of Berea college, Berea; Dr. Raymond F. McLean, president of Transylvania college, Lexington, and Senator Alben W. Barkley, Paducah.

Wallace Jones Wins Dempsey Sport Trophy

Wallace (Wah Wah) Jones, Harlan sophomore, was awarded the Jack Dempsey trophy June 4 after he had received the largest number of votes by student balloting for UK's outstanding athlete during the 1946-47 school year.

In this contest, the primary qualifications considered were sportsmanship, cooperation and enthusiasm. The award is to be an annual affair.

Jones, during the 1946-47 school terms, received many honors at football, basketball and baseball. He was selected on the All-Southeastern Conference football team as an end; in basketball the handsome Harlan lad, playing both forward and center for Kentucky, made All-SEC and later All-American.

In 33 cage games, Wah Jones tossed in 217, and he was leading Wildcat scorer in the Southeastern and National Invitational tournaments scoring 50 tallies in Louisville and 36 points in the Madison Square Garden classic.

On the diamond, the six-foot, four-inch athlete was one of the leading pitchers and batters in the conference. In winning three games—Vanderbilt, Tennessee and Eastern—for Kentucky the Harlan hurler allowed but four runs in the three games he pitched.

Hockensmith Elected President Of BSU

Hoge Hockensmith was elected president of the Baptist Student Union for the summer quarter at the last spring quarter meeting of the group. Other officers selected are Bethel Burdine and Tom Francis, first vice-presidents; Anne Biggestaff, 2nd vice-president; Reita Redden, 3rd vice-president; Evelyn Crawford, secretary and pianist; and Vic Bruner, treasurer.

The BSU noonday devotions will be held daily in the SUB at 12:40. The time change was made to conform with the summer class schedule.

Traffic Signals Are Installed

Traffic lights have been installed on South Upper street and Limestone near the junction of the two streets.

SGA president Claude S. Sprowls negotiated with city officials to secure the lights at the request of the men in the Scott street barracks.

Construction Work To Begin On New Fine Arts Building

Sprinkler System Will Be Installed

Trustees of the University at their quarterly meeting Tuesday, June 3, approved the letting of contracts for the proposed new fine arts building. Construction work is expected to begin this month and the building will be completed in about two years.

Low bid for general construction—\$92,000—was submitted by the Whittemore Corporation, Louisville. Costs of installing heating and air conditioning equipment, plumbing, electrical equipment, an elevator, and a sprinkler system will bring the total to \$1,376,306.50.

Sub-contractors submitting the lowest and best bids were: Raymond N. Meyer, Louisville, heating, \$66,111, and plumbing, \$56,474; T. J. Connor, Inc., Cincinnati, air conditioning, \$106,573; Murphy Elevator Company, Louisville, freight elevator, \$10,280; Rockwood Sprinkler Company, Cincinnati, sprinkler system, \$6,409; and the Payette Electric Company, Lexington, electrical work, \$138,459.50.

President H. L. Donovan is recommending to the Board of Trustees that the contracts be accepted, de-

claring that a building to house the Department of Music, Department of Art, and Guignol Theater is one of the University's most pressing needs. Fire on February 10 of this year destroyed the frame structure housing the theater and part of the music department. The art department has temporary quarters in the Biological Sciences building.

The fine arts building will be located between Stoll field and Maxwell place, and will front on Rose street. Of red brick construction with an entrance built of split white limestone, the structure will be U-shaped with approximately 150,000 square feet of floor space and overall dimensions of 281 x 248 feet. In height, the building will average three stories but will vary from one story at the entrance to 77 feet above ground level at the fly gallery of the theater.

Included in the building, to be divided into a music wing and an art wing, will be all classrooms, offices, studios, practice rooms and libraries of the departments of music and art, and dramatics. Guignol's new home will be air-conditioned and will seat 440 persons. It will be completely designed and equipped according to modern stage practice.

In addition, there will be a laboratory theater seating approximately 125 persons and equipped with a projection screen. The smaller theater will be used as a classroom laboratory for instructing students of all three departments in visual aids.

Band and orchestra music libraries, music studios and offices, rooms for instrumental rehearsal and glee club, stage dressing rooms, property rooms, instrument repair rooms, and a mechanical room will comprise the ground floor.

The first floor will have more music practice studios, record storage room, listening cubicles, a central library, theater, art gallery, art studios and offices for dramatics. Second floor rooms will include additional music practice studios, eight classrooms, drawing studios and offices of the art department. The third floor, in the art wing only, will be devoted to studios and offices.

The building, which will be modernistic and functional in design, is to be built of a combined reinforced concrete and steel frame. It will be fireproof and, as an added precaution, will have an automatic sprinkler system. Music practice rooms will be soundproofed and air conditioned.

Conrad And Moore Represent UK At Conference

Russell Conrad and Ross Moore represented the University at the Southern Regional YMCA Leadership Training Conference held at Blue Ridge, N. C., June 6-14.

Ten Southern states were represented at the conference.

The Blue Ridge camp is owned and operated by the YMCAs of the South, but it is used for all kinds of conferences throughout the summer. There was a full recreation program held in connection with the training conference, and all the 140 Y members at the conference took part in the six workshops held during the period.

One of the outstanding speakers was Dr. T. Z. Koo, of Shanghai, China, eminent leader in the youth movement and secretary of World Christian Student Federation.

Donovans Will Hold Summer School Tea

A summer school tea will be held Wednesday afternoon, June 25, from 4 to 6 at the home of Dr. and Mrs. Herman Donovan. All students, faculty members and their wives, and staff members and their wives are cordially invited to attend this tea, which will be the only one held during the summer school sessions.

In the receiving line will be Dr. and Mrs. Donovan, Dr. Frank McGraw, Dr. and Mrs. Leo Chamberlain, Dean and Mrs. Maurice Seay, Mr. and Mrs. Frank Peterson, Dean and Mrs. T. T. Jones, Mr. and Mrs. A. B. Kirwan, and Mrs. Sarah B. Holmes.

Union Dance To Be Held

The student union dance committee will sponsor a dance tomorrow night from 9 to 12 in the newly air-conditioned Bluegrass room of the Student Union building.

Bob Bleidt and the "Blue and White" will play for the informal dance. Admission is \$1.00, stag or drag.

The chaperones for the occasion will be Mrs. Sarah B. Holmes, Dean and Mrs. T. T. Jones, Mr. and Mrs. A. B. Kirwan, Mr. and Mrs. W. L. Mathews, Paul Oberst, Miss Margaret Story, Mrs. Gertrude Harward, Mrs. Mildred Turner, Mrs. Gertrude Zemp, and Mr. and Mrs. Calvin.

More Quonset Huts Being Constructed

Several pre-fabricated buildings and quonset huts are now under construction on the campus and more are planned.

All of the quonset huts will be used for storage purposes, according to the office of E. B. Farris, director of maintenance and operations. The pre-fab going up between Pence and Kastle halls will be used for chemistry laboratories and classrooms. The one on Limestone in front of Memorial hall will be used as a classroom building.

Two other semi-permanent buildings are to be constructed. One to be used for classrooms, laboratories and office space is to be started within a few days. It will be located by Lafayette hall.

The other will be a maintenance and operations combined shops building.

Dr. Capurso Named Kansas University Visiting Professor

Dr. Alexander A. Capurso, head of the University department of music, has been named visiting professor of music in the graduate division of the school of fine arts at the University of Kansas, Lawrence, for the summer quarter, it was announced May 31.

Dr. Capurso will teach courses entitled music in society and influence of music on behavior, and will serve as a consultant on problems of research in music. He also will conduct the University symphony orchestra.

The Kansas fine arts division, one of the outstanding schools of its type in the Midwest, is headed by Dr. Donald Swarthout, president of the National Association of Schools of Music.

During the absence of Dr. Capurso, music staff members Robert Kuhlman and Mrs. Mildred Lewis will alternate as acting head of the University department.

Dr. Capurso has also been recently appointed to the national board of directors of the National Society of Music and Art, a society composed of leading American composers and symphony conductors, with headquarters in Los Angeles, and to a national committee of five making a study of problems of music on human behavior for the National Association of Schools of Music and the Music Teachers National Association.

Dr. Capurso received his formal education entirely at the University of Kentucky, receiving his bachelor's degree in music in 1933 and a Ph.D. five years later.

Summer Registration Smashes All Records

Scholarships To Be Given In Mining

Firm To Provide Summer Work At David Mines

Two four-year scholarships in mining engineering covering University tuition expenses will be awarded during the summer vacation period at the mines in David. They will have two weeks vacation each fall prior to their return to the University. During the school year their summer savings are to be augmented by the scholarships to the extent of \$400 or \$500 per annum. This sum is to cover matriculation, food, lodging, books and other incidental expenses, according to Dean Terrell.

In addition to the scholarships awarded at the University, the company sponsors four high school scholarships and two at Pikeville Junior college. The company is located at David, in Floyd county near Prestonsburg. Operation began in 1941 and annual production now is approximately 1,000,000 tons.

The company also will provide work for the students during the summer vacation period at the mines in David. They will have two weeks vacation each fall prior to their return to the University. During the school year their summer savings are to be augmented by the scholarships to the extent of \$400 or \$500 per annum. This sum is to cover matriculation, food, lodging, books and other incidental expenses, according to Dean Terrell.

In addition to the scholarships awarded at the University, the company sponsors four high school scholarships and two at Pikeville Junior college. The company is located at David, in Floyd county near Prestonsburg. Operation began in 1941 and annual production now is approximately 1,000,000 tons.

Disabled Veterans Should Apply Now For Automobiles

Veterans of world war II who suffered the loss, or loss of use, of one or both legs at or above the ankle have until June 30, 1947, to apply for automobiles at government expense, the Louisville office of the Veterans' Administration has announced.

Harry W. Farmer, regional manager, advised eligible veterans to file claims in advance of the June 30 deadline. Veterans may obtain necessary forms at any VA office in Kentucky.

The cost of each vehicle is limited to \$1,600, including special equipment or attachments.

Insurance Reinstated
Veterans of world war II may also reinstate lapsed national service life (G.I.) insurance without a physical examination, up until August 1, 1947, the VA added.

Mr. Farmer pointed out that NSLI may be reinstated in amounts ranging from \$1,000 to \$10,000. Veterans need pay only two monthly premiums to reinstate term plan insurance if health is as good as when the insurance lapsed.

NSLI offers such features as lump sum settlement, unrestricted choice of beneficiaries and a wide selection of permanent plans of insurance, Manager Farmer said.

Advice and assistance regarding G. I. insurance is available at all VA offices in Kentucky.

Fellowships Won By 17

Margaret Voorhies Haggin trust fund fellowships and scholarships carrying stipends totaling \$7,100 have been awarded to 17 persons for study during the 1947-48 school year in the University graduate school, Dr. W. D. Funkhouser, dean of the school, announced June 3.

Established in memory of George Voorhies, the Haggin awards are open annually to any student who holds a bachelor's degree from a college or university in good standing, provided the student has shown some special aptitude for the line of work he desires to pursue. Dean Funkhouser explained. The appointments are made for one year only, but may be renewed if it can be shown that the prosecution of research should continue, he added.

Fellows and scholars are expected to devote their entire time to graduate research, primary object of the awards. No teaching or other departmental duties are required of them.

Three \$500 fellowships go to Miss Evelyn Becker, Jeanette, Pa., for research in bacteriology; Arthur McFarlan Jr., Lexington, Geology; and John Robinson, Lexington, education.

Scholarships carrying stipends of \$400 each were approved for Thomas Duncan, Louisville, for graduate work in English; Eugene A. Smith, Horse Cave, business education; Orville Taylor, Little Rock, Ark., history; Lester Hamilton, Olive Hill, philosophy; Louise Tale, Miami, Florida, bacteriology; Irving Lieberman, Brooklyn, New York, bacteriology; Joseph Lance, West Asheville, N. C., business education; Frances Hodges, Sulphur Well, bacteriology; Betty Congleton, Congleton, Ky., history; Mrs. Claudine Worths, St. Simons Island, Ga., education; Robert Stone, Frankfort, bacteriology; Helen Hampton, Asheville, N. C., romance languages; Miriam Schnaper, Jersey City, N. J., sociology; and Shirley Wenske, Chicago, Ill., zoology.

The fellowships and scholarships were approved by the University Board of Trustees at its meeting June 3.

Football Stickers Now Available

Automobile football stickers and schedules are now available to students if they stop at the athletic office in Alumni Gym.

The Wildcat stickers are blue and white with the 1947 gridiron schedule on the back-side. Also pocket-sized cards are available, which have the football schedule of Kentucky and the other Southeastern Conference teams, printed on them.

Campus Constitution Committee To Meet

The campus committee for revision of the Kentucky constitution will hold its first meeting at 7 p.m. Tuesday in the Student Union building, Pelham Johnson, chairman, announced this week.

With its organization completed, the committee has requested that any interested students, including those who have been connected with the group in the past, attend this meeting Tuesday night in order that the committee's campaign for a new state constitution may be put into operation as soon as possible.

All-Campus Sing To Be Held

An all-campus sing will be held Wednesday evening, June 25, at 7 o'clock in the amphitheater behind Memorial hall.

Mrs. Mildred Lewis, who will direct the song-fest, announced that if attendance warrants, the all-campus sing will be held weekly throughout the summer.

Mortar Board Elects Officers

Mortar Board officers for the coming year were announced at the initiation of 14 new members in the Botanical Gardens, Sunday, May 11. The new president is Helen Hutchcraft; vice president, Jane Street; secretary, Maybelle Reichenbach; treasurer, Elizabeth Smith; historian, Floye Mullineaux. Initiates were Leslie Toll, Corinna Cook, Dorothy Adams, Jean Kesler, Mary Keith Dosker, Kay Johnstone, Millie Johnston, Maybelle Reichenbach, Ellen Wood, and the new officers.

Mrs. Sarah B. Holmes, Miss Jane Haselden, and the local Mortar Board alumnae were guests at the initiation ceremonies and the breakfast which followed in the football room of the Union building. Barbara Allen, retiring president, presided.

386 New Students Enter University; Total Nears 4,000

A new summer quarter high of 3789 students had registered at noon Wednesday, according to Miss Maple Moores, assistant registrar. 4,000 are expected by Saturday when the registration period closes. Dr. Leo Chamberlain, University vice-president, stated. The \$5.00 late fee goes into effect today.

Despite the new high the figure is somewhat below the number anticipated last winter. The reason for this Dr. Chamberlain said, was that veterans had unexpectedly dropped out of school for the summer. He gave two reasons for this: some are tired of year-around school, and others feel the need of summer jobs.

Dr. Lyle W. Croft, director of the University personnel office, and chairman for freshmen week activities reported that 386 new students had registered at noon Wednesday. This exceeds by more than 100 the number expected.

The new students were divided into eight groups for various activities Monday and Tuesday. Monday they toured the library and post-office.

Enrollees who had not had them took their classification tests. Physical examinations were given Monday and Tuesday. W. H. Heinz, associate professor of hygiene, reported Tuesday afternoon that the University health service had given a total of 213 physical examinations: 133 men, and 80 women. This figure does not include transient students.

On Tuesday new students attended meetings with the deans of their colleges, a meeting under the direction of the personnel department, the S.G.A. meeting, and all new women attended the dean of women's meeting held Monday.

Group leaders for freshmen week included Mary Louise Skidmore, William Whittenburg, Eugene Luttrell, Luther Hilliard, Bera Rees, Joyce Crutchfield, Eugene Flood and Kenneth Bruckard. Coordinators for the program were Jane Street and William Champion.

Hurst, Trabue Win Sullivan Medallions

Awards Presented At Graduating Exercises

Algernon Sydney Sullivan medallion winners this year include Frank Selby Hurst, Lexington, Miss Sara Lee Trabue, Hopkinsville, chosen the outstanding man and woman graduate, respectively, of the 1947 senior class of the University, and William P. King, Louisville, executive secretary of the Kentucky Education Association, who was named Kentucky's "outstanding citizen of the year." The awards were presented at the University commencement exercises, Friday, June 4.

The 1947 award to Mr. King was given on the basis of his outstanding service to education in Kentucky and the nation, according to the University. He was born in Mason county and educated at Georgetown College, Miami University and Cincinnati School of Law, from which he holds the LL.B. degree. The LL.D. degree was conferred upon him by Georgetown College.

During his early career he was a teacher in the public schools of Mason county and principal in the city schools at Maysville. He later became superintendent of schools at Bellevue, and still later at Newport. From 1925 to 1929, King was president of Carr-Burdette College at Sherman, Texas. He has been executive secretary of the K.E.A. and editor of the "Kentucky School Journal" since 1933.

Frank Selby Hurst, son of Mr. and Mrs. O. E. Hurst of Lexington, re-

Geography Office Has Lost Items

The Geography department has an accumulation of lost articles and requests that students who feel they may have lost articles near the department to please call at the office.

Chi Omega Standing Story Is Corrected

In the Kernel of May 30, the sorority scholastic standings were listed with Chi Omega active having top standing with 1,678. This is the fall and winter quarter grand total of both actives and pledges. The Chi Omega actives had a 1,946 standing for fall and winter quarters taking top honors again.

STARS OF '48, '49, AND '50—Coach Paul Bryant is pictured with some of the freshman hopefuls who registered for summer school to try their luck with the young football mentor. Reading left to right on the front row—Richard Horton, Spencer, W. Va.; Joe Taberner, Toledo, Ohio; Bill George, Dayton, Kentucky; Wilbur Jamerson, Henderson, Ky.; Harold Wooddell, Beckley, W. Va.; Bob Jones, Chicago, Ill.; Lawrence Howard, Harlan, Ky.; Russell E. Kneier, Covington, Ky.; Trent Serini, Tuckahoe, N. Y.; and Ben Zaranaka, E. Chicago, Ind.; Second row—Ogden Thomas, Huntington, W. Va.; Bob Gholmer, Hammon, Ind.; John Dorman, Covington, Ky.; Clayton Webb, St. Albans, W. Va.; Jim Swenck Buechel, Ky.; Sherwin Gaudet, Akron, Ohio; Bobby Pope, Harlan, Ky.; Bob Wodtke, Gary, Ind.; and Don Frampton, Bradford, Pa. Third row—Nerbert Moran, Ambridge, Pa.; Walt Painter, St. Albans, W. Va.; Joe Davis; Bobby Brooks, Gary, Ind.; William Cende, Charleston, W. Va.; Billy Robertson, Trenton, Tenn.; Bob Koonitz, Huntington, W. Va.; Bob Galm, Weirton, W. Va.; and Larry Flamm, Chicago, Ill.

The Spice Of Life

By Amy Price

I don't cuss and I don't neck. Don't say hell; I just say heck. I'm always good, and I'm always nice.

'Cause I don't play poker and I don't shoot dice. I don't drink, I don't flirt. I don't gossip and I don't spread dirt. Ain't got no lines or clever tricks. But what the heck, boys, I'm only six!

Lifted Little did we think that we would our trials and tribulations to the person who took over in summer school that we would be the unfortunate victims. But here The Spice goes again.

Many of the returning students look like they should have another week in order to recuperate from their last week end at camp. John (I wrote a book) Irvin is taking time out from writing books to squire Emily Jones about town. Jim Mac Strother (Phi Sig) took advantage of his week's vacation by taking his pinned gal home to meet the folks and giving her an engagement ring.

He: If I kissed you, would you yell?
She: Yes, if I thought you needed help.

The prize mixup occurred at the Sigma Nu house the other day when Lance Trigg pinned the gal, Virginia Chambers (KD), whom two of his fraternity brothers were practically going steady with. It was Lance's first date with her or so the story goes.

Some eligibles back for summer school are: Female Sue Ann Turley, Elizabeth Reynolds, Jean Stevens, Imogene Combs, Patsy Allen, Helen Deiss, Martha Rich, Dot Yancey, Mary Frances Hagan, Louise and Jean Henry, Gladys Bowling, Phyllis Draper, Georgia Portmann, Betty Hensley, Martha Allen, Ann Blessing, Marie Lewis, Frances Pritchett, Nell Payne, Frances Mullins and sister, Jean Moore, and Amy, of course.

Male: Bill Simmons, Spiny Merwin, Squeaky Thomas, Les Luster, Jack McComas, Jim Keniepp, Jim Babb, Frank Bryson, Dick Lowe (phone-3489, call after one in the afternoon), Hock Hockensmith, Al Cummins, Claude Sprowls, Lewis Sawin, Paul Cheap, Joe Miller, Fred Howard, Russell Travis, Richard Anderson, Cleo Cordell, Sonny Christian, Bill Lamb, Ed Roberts, Roger Thornton, Paul Coombs (901) and call for Paul, Frank Gilliam, Jim Donovan, Bob Miller, Jack Adams, and Fred Nichols.

He (in secluded spot): Outta gas, by golly.
She (pulling out flask): Oh yeah?
He: Ah, what have we here?
She: Gasoline.
Edward Elsey (DTD) lost his girl friend to "Doodle" Dean while at Herrington Lake last week. What happened, Ed?

Pinnings: Clay Vanandingham (SAE) and Virginia Bradley (KAT); Bill McClain (DTD) and Wanda Barry; Edna O'Brien (DDD) and Bill Ginn (SX).

Engaged: Wah Wah Jones and Edna Ball; Norman Klein and Rita Greenwald; Kenny Rollins and Mabel Murray; Betsy Hammons and Joe Boyd; Bill McCowan and Jane Stevens; Jackie Johnson and Bill Boswell.

Betty Leece's (AGD) summer is being spent by playing golf every afternoon with Pat Kelly (KS).

Jo Hampton and Bill Fowler trekked down the Isle last week. As did Peg Toy and Bill Hubbard.

Sayings from the spring quarter:

Vote Of Thanks

If there's a new light in the eyes of Kernels, it's because the light of day has come to the offices. Maintenance and operations have washed the windows, waxed the floor, so now we start with a clean slate and office, too.

No kidding, theirs is a thankless job. Always working, always hearing complaints, and never a word said about the stacks of things they do get done.

No one can imagine how many letters accumulate in their offices asking them to do the million little things that make the University able to function as an educational institution. They necessarily get behind with them, but they're trying, so let's be patient. They're doing a good job.

Hurst, Trabue

(Continued from Page One)

ceived his high school education at Lexington Henry Clay, graduating in 1942. Continuing his education at the University, he received his A.B. degree with high distinction from the college of arts and sciences in August, 1945. At commencement exercises this year he was awarded his LL.B. degree by the college of law. Miss Trabue, winner of the Sullivan award as the outstanding woman graduate, is a native of Hopkinsville, the daughter of Dr. and Mrs. W. L. Trabue. She graduated from Hopkinsville high school as the valedictorian of her class in 1943, and attended Centre college at Danville for two years prior to entering UK in 1945.

An education-English major planning to enter the teaching field in Kentucky, Miss Trabue has been outstanding in both scholarship and student activities. She is president of Chi Omega, social sorority; a past president of Panhellenic, governing body of campus sororities; a member of the Student Government Association assembly; Mortar Board, national senior women's honorary; YWCA Board; League of Women Voters; and Kappa Delta Pi, education honorary, which recently voted her the outstanding college of education student for 1947. She also is listed in "Who's Who Among Students in American Colleges and Universities" and up to the current quarter has a near-perfect 2.9 academic record.

Nominations for the awards were made by members of the UK faculty and staff to a committee chairman named by Dean of Men T. T. Jones.

Grandma says that holding a boy's hands used to be an offense; now it's a defense.

Teacher: "Junior, if I take 59 from 101, what's the difference?"
Junior: "Yeah, that's what I say. Ta hell with it."

A. B. "with high distinction" from the University in 1936. Here he maintained a standing of 3. for four years. He was a member of Phi Beta Kappa, a Rhodes Scholar, Cadet Colonel of the ROTC, a member of ODK, and president of Sigma Chi social fraternity.

Professional experience of Professor Stahr includes a senior associateship at the law firm of Mudge, Stern, William & Tucker, Wall Street, New York City. He was admitted to the New York bar in 1940 and later to the bar of the United States District Court (South District, New York.) He is a member of the American Bar association, the Association of Bar of the City of New York, and the Legal Aid Society.

During World War II Professor Stahr entered the army as second lieutenant and during four years service, including 26 months overseas, he was promoted to lieutenant colonel. He saw duty in China where he was a staff officer and chief of staff of the American combat section attached to the Chinese 5th

Forest on Pine and Dog Mountains, Natural Bridge, Ky., and the Red River Gorge. It was sponsored by the Ecological Society of America.

McInteer Back

Dr. B. B. McInteer, associate professor of botany, has returned from a five-day field trip with a party of scientists from the eastern United States and Canada. The expedition went into remote sections of the Kentucky mountains to study the fast disappearing virgin forest tracts. Dr. E. Lucy Braun, professor of plant ecology at the University of Cincinnati graduate school of arts and sciences, led the trip, which centered around Pineville.

In the Cumberland mountain district, the scientists studied some of the region's few remaining virgin stands of typical mixed mesophytic forest. The party started from Clear Creek, Ky., Mountain Preacher's school, near Pineville and followed daily excursions to Kentucky Ridge

Staff Changes Approved By Board of Trustees

Contracts totaling \$361,584, a policy regarding patents resulting from the research by staff members of the University, and numerous appointments, reappointments, promotions, leaves of absence, resignations, and other staff changes were approved at the last quarterly meeting of the University Board of Trustees held in the office of President H. L. Donovan.

The contracts let include: a dairy center, to be erected by the Switzer-Willing company of Lexington at a cost of \$132,967. It will be of concrete block and reinforced concrete construction. Included in the building will be a pavilion for use as a practical judging arena and providing seats for approximately 100, a dormitory for workers, and a refrigerated milk room.

An addition to the present animal pathology building will be constructed by the Hargett Construction company, Lexington, on a low base bid of \$199,000. The rewiring of the Experiment Station contract was awarded to the Fayette Electric company of Lexington for \$29,567.

Work on all three projects will start sometime this month.

Patent Policy Determined

As a general policy, patent rights resulting from research using staff, materials, equipment, and facilities of the University shall be owned and controlled by the University. It was decided. The policy in relation to a member of the staff having an interest in a patentable discovery requires that the staff member shall assign his patent rights to the University but shall have an interest in the patent and share in the returns.

The University will transfer and assign any rights which it may have in any discovery or patent to the Kentucky Research Foundation or its agent, for the purpose of having any proceeds or profits from use of a patent used for the furtherance of research at the University.

New Appointments Made

The new staff changes include: College of Arts and Sciences—Promoted assistant professor to associate professor of anatomy and physiology; William R. Brown, to associate professor of geology; James S. Calvin, to associate professor of psychology; George B. Carson Jr., to associate professor of history; Arthur L. Cooke, to associate professor of English; Clyde B. Crawley, to professor of physics; John L. Cutler to assistant professor of English; Ogden F. Edwards, to associate professor of bacteriology; J. Merton England, to assistant professor of history; Margaret Hotchkiss, to professor of bacteriology; Gladys M. Kammerer, to associate professor of political science; Robert Kuhlman, to assistant professor of music; Mary Muedking, to assistant professor of bacteriology; Frank J. Prindl, to assistant professor of music; Ernest G. Trimble,

to professor of political science; Bennett H. Wall, to assistant professor of history; Sallie E. Pence, to associate professor of mathematics; Dudley E. South to professor of mathematics and astronomy; Dr. Lysle W. Croft, from part-time assistant professor of psychology to part-time associate professor of psychology.

Appointments: Jonah W. D. Skiles, professor of ancient languages and head of the department, replacing Dr. T. T. Jones who is being given a change of occupation; E. K. St. Clair, visiting professor of history for first term of the summer quarter and visiting professor of political science for second term of the summer quarter; Anne Shropshire, instructor in English for the summer quarter; Mary Kelly, curator of paleontology; L. H. McParlan, visiting professor of mathematics for the summer quarter; J. Merton England, acting head of the Department of History for the summer quarter when Dr. Thomas D. Clark is on leave of absence; A. B. Guthrie, visiting lecturer for the fall quarter in the Department of English Language and Literature; Fred C. Mabey, visiting associate professor of chemistry for the summer quarter.

Leaves of absence: William D. Stout, instructor in political science, granted leave for the second term of the summer quarter; Victor R. Portmann, assistant professor of journalism, granted leave for the first term of the summer quarter; T. D. Clark, head of department of history, granted leave of absence for the summer quarter to teach at the University of Chicago; Robert G. Lundie, associate professor of history, granted leave of absence for the second term of the summer quarter in order to complete a research project.

Resignations: Casper Goffman, assistant professor of mathematics; Mrs. Betty Crawley, instructor in mathematics and astronomy.

College of Agriculture and Home Economics—Promotions: C. E. Bortner, assistant agronomist to associate agronomist; H. F. Miller, assistant in agronomy to assistant agronomist; J. T. Spencer, assistant agronomist to associate agronomist; E. M. Johnson, associate plant pathologist to plant pathologist; E. R. Doll, associate veterinarian to veterinarian; Alice Moran, assistant bacteriologist to associate bacteriologist; J. H. Bondurant, assistant in farm economics to associate economist in farm economics; B. B. Byers, assistant in farm management to associate economist in farm economics; E. J. Nestus, field agent in farm economics to assistant economist in farm economics and field agent in farm management; B. L. Hornbeck, junior forester to forester in farm economics; Mrs. Mary C. Woodridge,

instructor to assistant professor in home economics; Mrs. Ozella Gilbert, laboratory aid to assistant chemist; C. S. Waltman, associate professor of horticulture and assistant horticulturist to professor of horticulture and associate horticulturist; D. G. Guard, professor of agricultural economics and assistant in markets to professor of agricultural economics and associate economist in agricultural prices; C. D. Phillips, assistant in marketing to associate economist in agricultural marketing; C. M. Clark, assistant professor of markets and rural finance and assistant in markets to assistant professor of markets and rural finance and assistant economist in agricultural marketing; J. R. Roberts, assistant professor in marketing and assistant in markets to assistant professor in marketing and assistant economist in agricultural marketing; A. J. Brown, associate professor of marketing and head of the Department of Markets and Rural Finance to professor of marketing and head of the Department of markets and Rural Finance.

Appointments: Clarence S. Bell, field agent in dairying; Mrs. Bess Nolan, seed analyst; Richard G. Foy, assistant county agent, Ballard county; Mark L. Bennion, assistant county agent in training, Harrison county.

Du Pont Digest

Items of Interest to Students of Science and Engineering

Fundamental Engineering Studies

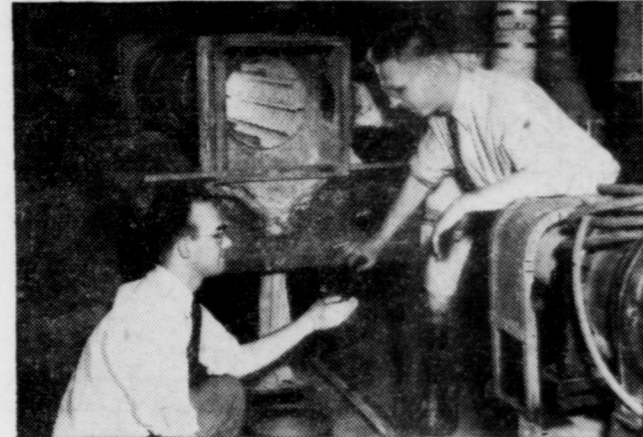

In a company like Du Pont the diversity of chemical operations is great and the investment in equipment is high. In addition to the engineering work done in the ten industrial departments, the responsibility for design and construction of manufacturing plants is undertaken by the central engineering department, which also maintains an engineering research laboratory. This laboratory is staffed by chemical, metallurgical and mechanical engineers, and physicists, whose function is to carry on fundamental and pioneering applied research to develop new methods of processing and equipment designs; improve equipment, materials of construction, and methods of measurement and control; and establish fundamental relationships in unit operations and unit processes.

For example, a broad project was undertaken to study the fundamentals of rotary drying. A principal objective of the study was to learn the effect of the operating variables on the volumetric heat transfer coefficient. Of the numerous variables that affect the drying rate of such a dryer, the more important ones studied were: (1) feed rate, (2) dryer rotation rate, (3) air rate, (4) air temperature, (5) number of flights, (6) direction of air flow, and (7) dryer slope.

Studies on a Laboratory Scale

Fundamental studies of heat transfer and mass transfer were made in a laboratory scale rotary dryer, 1 ft. in diameter by 6 ft. long. To determine the true heat transfer coefficient, special methods were devised to measure the material temperature along the length of the dryer and to measure continuously the temperature of the rotating shell. These determinations permitted an analysis of all the heat transfer effects in the dryer; namely, from air to solid, from shell to solid, and from air to shell.

From a knowledge of the material

Studying product development in an experimental rotary dryer. H. J. Kamock, B. S. Chemical Engineering, Georgia Tech. '41; F. A. Gluckert, B. S. Chemical Engineering, Penn State '40.

Inspecting the interior of experimental spray dryer after a run. W. R. Marshall, Jr., Ph.D. Chemical Engineering, Wisconsin '41; R. L. Pigford, Ph.D. Chemical Engineering, Illinois '41.

temperature along the dryer, it was possible to calculate the air temperature at each point in the dryer and thereby to determine point values of the heat transfer coefficient. This procedure permits the calculation of a more accurate average temperature difference, which gives more accurate heat transfer coefficients than can be obtained from terminal conditions only.

During the course of the study, every opportunity was taken to obtain heat transfer data on large-scale plant dryers in order to establish scale-up factors. This procedure permitted the correlation of heat transfer coefficients from a 1 ft. diameter dryer with those of full plant size.

Paralleling the work on the fundamentals of rotary drying operation, problems involved in product and process development received continuous attention. These usually require an investigation of the important auxiliary problems of: (1) material handling to and from the dryer, (2) removal of dust from the air, (3) sealing the space between the rotating shell and stationary breeching, and (4) corrosion of the dryer shell.

How the Results are Applied

The findings of the effect of holdup on dryer capacity were applied to an 8 ft. standard rotary dryer producing 300

lb./hr. of granulated material. The information obtained on this factor alone permitted an increase in capacity of 75 to 100%. This meant an increase of over a million pounds annually. Further, one dryer could now handle the load of two, releasing second dryer for other work.

The information developed in such fundamental studies permits more accurate design of equipment for future operations resulting in lower cost of manufacture and lower investment.

Questions College Men ask about working with Du Pont

WHAT KIND OF TRAINING WILL I GET?

All new employees receive on-the-job training. Men who are engaged in research, development or engineering have the opportunity to add continually to their knowledge and experience in specific fields. This practical training is supplemented at many Du Pont plants and laboratories by training courses and lectures. Write for booklet, "The Du Pont Company and the College Graduate," 2521 Nemours Building, Wilmington 98, Delaware.

More facts about Du Pont—Listen to "Cavalcade of America," Mondays, 7 P.M. CDST, on NBC.

BETTER THINGS FOR BETTER LIVING . . . THROUGH CHEMISTRY

Wildcat Grid Squad Strengthened As 35 Frosh Enroll For Summer Session Before July 1 Eligibility Deadline

Intra-Squad Game Planned For July 19 To End Practice

By O. C. Halyard

The 1947 edition of the Kentucky Wildcats was strengthened this week when 35 outstanding football prospects enrolled in summer school just under the July 1 deadline for freshmen.

Players enrolling after July 1 will only be eligible to compete three seasons, according to Southeastern Conference ruling.

Taking advantage of the last opportunity to enroll candidates before the old freshman rule, discarded during the war, is re-instated, Coach Paul Bryant and staff turned up with the boys from eight states. The crop is the result of months of intensive studying and viewing high school talent.

Practice Ends July 19

The summer practice now under way will continue until July 19, and will be concluded with an all-freshman intra-squad game.

In an effort to make the T click this fall, Bryant has secured the help of Jimmy Yowell of the Washington Redskins, professional team, to demonstrate the T to the boys. Jimmy, an old Navy buddy of the head mentor, has been understudying singing Sammy Baugh and ranks high when it comes to handling the T-formation.

Although eight of the huskies came from within our own state's border, neighboring West Virginia contributed nine of their best high school players, and Pennsylvania placed seven on the roster.

All other candidates except one came from bordering states with Indiana and Ohio each represented by three and Tennessee and Illinois sending two each.

Kentucky tackle Wash Serini's younger brother, Trent, rounded out the list and became New York's only dividend.

Kentucky Men

Heading the Kentucky contingent was Henderson's Wilbur "Shorty" Jamerson, 175-pound halfback, and a big 210 pound tackle from Harlan named Bobby Pope. Also from Harlan comes L. C. Howard, a swift little halfback.

Rounding out the list of Kentuckians are John Dorman, Covington, 200 pound center, Russ Knoerl, a member of Tom Ellis' Holmes High eleven last fall, James Pickens, Princeton, Bill George, Dayton, and James E. Swench, Beuchel.

All-State Mountaineers

Bill Leskovar, back from Fairmont, Clayton Webb, St. Albans back, and tiny Richard Horton, 150 pound speedster who holds the high school scoring record in West Virginia with 506 points tallied in four years, were among the all-state men reporting from the Mountaineers state.

Bob Gain, a 210 pound six foot three inch tackle, from Wierton, also made all-state honors, and Ogden Thomas, a tricky quarterback from Huntington made the second team. Bill Condie, a 205 pound fullback from Charleston was chosen all-state Catholic back. The Mountaineers had three additional big prospects in Walt Painter, St. Albans, Bob Koontz, Huntington, and Harold Woodell, Beckley.

Pennsylvanians

From Pennsylvania came Albert Bruno, West Chester, Norbert Moranz, Ambridge, Ted Bozich, Republic, Don Frampton, Bradford, John R. Koerber, Pittsburg, John Leon, Allison, and Bill Pavlikowski, Brownsville.

Hoosiers on the freshman squad are Bobby Brooks, Gary, Ben Zarkanka, E. Chicago, and Norman Snapp, Vincennes, while the Buckeyes are Sherwin Gandee, Akron, Joe Tabener, Toledo, and Walt Yaworsky, Cleveland.

Tennessee was represented by a big 190 pound fullback from Trenton, Billy Robertson, and John Chumley, a 186 pound halfback, who hails from the Volunteer's own stamping ground, Knoxville.

Two Chicagoans, Larry Flamm, a six foot two inch end, and Bob Jones, a short heavy set guard made up Illinois' contribution.

Intramurals Start Monday; Entries Due

Intramurals for the first summer session are planned and ready to go. Softball, tennis, and golf will be offered during this first period. Because of the short five-week terms action must get under way almost immediately.

Deadline Today

The deadline date for registration in all three sports has been set for five o'clock this afternoon, so that play can begin Monday afternoon. Schedules will be made out and posted on the intramural bulletin board this week-end.

Softball will be played on a round-robin basis first, followed by an elimination tournament to determine the winner.

Golf and tennis will be handled on the usual straight elimination basis of one defeat or forfeit eliminating the contestant. Singles and doubles will be played in both sports.

Intramural managers having pictures of their teams in action during the past year are asked to turn them in to the Kernel Sports desk for possible use in the 1947 Kentuckian.

Proper identification of team and game should be with each picture. Also pictures should be marked so they can be returned.

Plans for the second term of summer intramurals include only softball and golf. Tennis will not be conducted because of the conflict it would present with the annual Bluegrass tourney listed for the first of August.

The sulphur-crested cockatoo has one of the longest life spans of any bird. It usually lives to be about 56 years old.

Members of the Delta Tau Delta social fraternity who helped their frat win the first annual Intramural Participation trophy are pictured with their newly gotten prize, and also the Intramural Boxing and Wrestling trophy which they recently won.

Presentation of the trophy was made to the organization earning the greatest number of points during the last year for participating in Intramural sports. The Deltas accumulated 2549 points.

Deltas Presented Intramural "Participation" Trophy

The Delta Tau Delta fraternity continued to maintain their early point advantage in the Intramural Participation trophy race and when final tabulations were made at the end of the spring quarter, the boys from the Delta Shelter were out in front by 591 points.

In second place were the ATO's with 1958 points having passed the SAE's in the closing laps of the race and forced them back to third with 762 points.

The Sigma Chis were fourth with 1203 points, while the AGR's finished a close fifth with an even

1200 points. Other teams at top the one-thousand mark were the KA's, 1180, the Phi Kappa Taus, 1101, and the Phi Deltas, 1050. Ninth and tenth places went to the Sigma Nus with 795 points and the Kappa Sigs with 790 points.

Smiling Jack Montgomery, intramural manager for the prize winning Deltas, said that he had splendid cooperation from the entire fraternity, or they never would have won.

The ATO's will receive a runner-up trophy in the participation race.

Small Cage Squad Begins Summer Practice Drills

By Tom Diskin

Wildcat cagers, under the guidance of Assistant Coach Harry Lancaster, began a summer practice session Wednesday afternoon in Alumni gym.

The session, which will continue throughout the coaching clinic in July is designed to keep members of the varsity squad registered in summer school in condition and at the same time give the coaches a chance to work with new prospects enrolling before the July 1 deadline on freshmen.

Twelve to fifteen men in all are expected to come out for the practice. Among them are Cliff Barker, Jim Jordan, Joe Holland, Kenny Rollins, Al Cummins, and Jack Parkinson, and a half dozen or so newcomers.

Some Scrimmaging

Lancaster has been sending the boys through fundamental drills under the basket, and staging some spirited scrimmages between old

squad members and the new hopefuls.

Coach Adolph Rupp, at the present time, is busy traveling from one coaching school to another, but is expected back in Lexington about June 25 to put his watchful eyes on the new candidates.
